

PHILOSOPHY: We believe that early childhood is a time of exploration and discovery. We know that young children learn by “hands on” experiences. Our staff is highly qualified to enhance each child’s growth and development in a stimulating atmosphere of warmth and understanding. Our low ratios allows each child to develop as an individual as well as a part of a group in a happy, safe, and nurturing environment.

CURRICULUM: Our curriculum is activity based to develop skills throughout an array of learning centers such as art, music, language, science, pre-reading, pre-math, and socialization.

*We accept children who require diapers & will help them master the use of the toilet when they show readiness.
